# OPERATION OF REMOTE TOUCH PAD

1. POWER ON/OFF, MUTE button
   - Press once to turn unit on.
   - With the unit on, press once to mute sound output. Press again to resume sound.
   - Long press the power button to turn the unit off.
2. SELECT button
   Press SEL button (2) repeatedly to select the desired mode in the following order:
   VOL --> BAS --> TRE --> BAL --> FAD.
3. MODE button
   Radio-->USB --> AUX --> BT MUSIC
   (USB mode appears only if a USB drive is inserted.)
4. BAND button
   In Radio mode, press BD button (4) to select desired band FM1, FM2, FM3, AM1, AM2.
5. Track play / pause button, radio preset 1 button.
6. Track intro scan button, radio preset 2 button.
7. Track repeat button, radio preset 3 button.
8. Track random play button, radio preset 4 button.
9. Directory Down, Radio preset 5 button.
10. Directory Up, Radio preset 6 button.
11. SCAN button
    In Radio mode, press SCAN (11) button to scan strong stations for a short introduction. At desired station press it again to stop scanning.

12. DISP (display) button
    Press DIS button (12) once to display the time.
    See your stereo's operation manual for instructions on setting the time.
13. A.PS - Auto Preset Scan button
    Press and hold A.PS button (13) for 2 seconds to search for six strong stations and to automatically store them on buttons 1 - 6.
14. LOUD (loudness) button
    In order to emphasize the bass and the treble at low volume, press the LD (14) button. To turn off loudness, press the LD button again.
15. Tune UP/DOWN button
    Press Tune UP/DOWN button (15) to tune radio, as well as the USB device, or BT Device (where applicable tracks up or down.)
16. Volume UP/DOWN button
    Press VOL UP/DOWN button (16) to increase or decrease the sound level.

Note, for clarification of the above features and information on additional features, consult the operation manual that came with your stereo.
